

Quotation Engineer / HV Motor Product Manager - Full Time

Job Summary

We are seeking a proactive and detail-oriented Quotation Engineer/HV Motor Product Manager to join our growing team in Norwich, United Kingdom. As part of our technical sales function, you will be responsible for preparing accurate and competitive quotations for custom electric motor projects across industrial and commercial applications.

Location: Norwich, United Kingdom

Reporting to: Head of European Sales Quotation Centre

Key Responsibilities

- Analyse customer RFQs, specs, and drawings.
- Collaborate with internal teams for design feasibility and cost estimates.
- Prepare detailed quotations and technical proposals.
- Select and size motors and components.
- Provide accurate pricing based on labor, materials, and production.
- Track quotation progress and customer feedback.
- Improve quotation tools and templates.
- Stay informed of industry trends and competitors.

Qualifications

- Bachelor's degree in engineering.
- 3+ years in quotation or technical sales.
- Electric motor or automation experience preferred.
- Familiar with motor types and controls.
- Able to read drawings/specs.
- Has good communication skills.
- Fluent in English.

What We Offer

- Competitive salary package and a permanent employment contract.
- 37.5 hours per week (Monday to Thursday 8:00-16:45, Friday 8:00-12:30).
- 25-days holiday + bank holidays.
- Company Pension Scheme.
- Life Insurance Scheme.
- Company Sick Pay Scheme.
- Free parking onsite and tickets to Norwich City Football Club.
- An international and highly motivated team.
- New challenges in an exciting, dynamic and competitive market with great growth opportunities.
